All cited publications used in this document are listed below. The text is color-coded to identify PalMod-funded publications (**dark blue**), publications resulting from in-kind contributions (**light blue**) and all other publications in **black**. By end of May 2018, about 120 publications emerged from PalMod funded work and co-operations.

Acevedo, W., Fallah, B., Reich, S. and Cubasch, U.: Assimilation of pseudo-tree-ring-width observations into an atmospheric general circulation model, *Clim. Past*, 13(5), 545-557, doi:10.5194/cp-13-545-2017, 2017.
