Correction to: Scientific Reports https://doi.org/10.1038/s41598-022-17313-w, published online 29 July 2022

The original version of this Article contained an error in the order of the Figures. Figures 1 and 2 were published as Figure 4 and 1. As a result, Figures 2 and 3 were renumbered to Figures 3 and 4.

In addition, Reference 102 was incorrectly given as Reference 84:

The correct Reference 102 is listed below:

Oksanen, J., et al. vegan: Community Ecology Package. R package version 2.5-7 (2020). https://CRAN.R-proje ct.org/package=vegan.

As a result, in the Methods section, under the subheading 'Bioinformatic analysis',

"To summarize compositional diferences between transects a principal component analysis of the Euclidean (Aitchison) distances 40 was performed on log-transformed ASV counts 37 and tested for statistical significance using a permutational analysis of variance 102 in the vegan package (v. 2.5.7)84."

now reads:

"To summarize compositional diferences between transects a principal component analysis of the Euclidean (Aitchison) distances 40 was performed on log-transformed ASV counts 37 and tested for statistical significance using a permutational analysis of variance 102 in the vegan package (v. 2.5.7)<sup>102</sup>."

The original Article has been corrected.
