|  | GO:0016042 | lipid catabolic process |  |  |  | 69 | 9 | 0.08 | 69 | 4 | 0.02 |

Table A9: Over-represented Gene Ontology Biological Process (GOBP) terms with down-regulated genes only. Data refer to GOBP terms that can be found in various intestinal sections. The following details are provided for each GOBP term: total number of genes in the microarray (gene set size, labelled as Set size), count of genes extracted with our analysis (observed hits, labelled as Hits), and adjusted p-values. Intestine sections: Prox = proximal; Mid = middle; Dist = distal. Response types: Im = linear; log= logarithm; exp = exponential.
