

# A customizable and extensible Tutorial Framework for improved Usability in ExplorViz

Helge Müller

June 28, 2019

## 1. Motivation

## 2. Goals

## 3. ExplorViz

Technologies

Structure

## 4. Tutorial Framework

Features

Extensible and customizable

## 5. Implementation

Backend

Frontend

## 6. Conclusion

Demonstration

Future Work

- ▶ Instruct new users

- ▶ Instruct new users
- ▶ Consistent instruction

- ▶ Instruct new users
- ▶ Consistent instruction
- ▶ Learning by example

- ▶ Instruct new users
- ▶ Consistent instruction
- ▶ Learning by example
- ▶ Expandable for further development

- ▶ G1: Literature / Tool research

- ▶ G1: Literature / Tool research
- ▶ G2: Develop a data model for tutorials

- ▶ G1: Literature / Tool research
- ▶ G2: Develop a data model for tutorials
- ▶ G3: Implement a modular Tutorial Extension

- ▶ G1: Literature / Tool research
- ▶ G2: Develop a data model for tutorials
- ▶ G3: Implement a modular Tutorial Extension
- ▶ G4: Implement a Tutorial-Management-Tool / Editor

- ▶ G1: Literature / Tool research
- ▶ G2: Develop a data model for tutorials
- ▶ G3: Implement a modular Tutorial Extension
- ▶ G4: Implement a Tutorial-Management-Tool / Editor
- ▶ G5: Evaluation
